PROFESSIONAL SUMMARY

Software Engineer / Quality Automation Engineer with 4.5+ years of experience in system design, application development, and building scalable automation frameworks (Cypress, Selenium, Cucumber BDD). Proven expertise in TDD/BDD methodologies, RESTful web services, database testing (SQL/Oracle concepts), and enterprise software life cycle toolchains. Experience leveraging AI-assisted engineering practices for test acceleration, code review, and root-cause analysis in cloud environments.

TECHNICAL SKILLS

- **Test Automation & Frameworks:** Cypress, Selenium (Java/Python), Cucumber BDD, Playwright, Page Object Model (POM), TDD, Manual Testing
- **Languages & Databases:** Python, Java, JavaScript, SQL, Oracle DB concepts, MongoDB
- **AI-Assisted Engineering & DevOps:** AI Code Review & Test Generation, GitHub Actions, CI/CD, SonarQube, Kubernetes, AWS
- **Web Technologies & Platforms:** React.js, RESTful Web Services APIs, Modern Front-End Tooling, Cloud SaaS, Salesforce, ServiceNow
- **Methodologies & Tools:** Agile/Scrum, JIRA, Confluence, Git, ITSM, Root Cause Analysis

WORK EXPERIENCE

Genpact — SDET Engineer / Senior Associate

Apr 2025 – Jul 2026

- **BDD & Test Framework Architecture:** Designed and developed modular, reusable test automation frameworks using Cypress, Page Object Model, and Cucumber BDD feature files, enabling parallel execution and reducing manual testing effort by 90%.
- **Integration & API Automation:** Engineered RESTful Web Service automation solutions using Selenium (Java) and Python, evaluating 10,000 daily transactional execution paths to prevent system failures and preserve \$100,000 in revenue.
- **AI-Assisted Delivery & Code Hygiene:** Leveraged AI-assisted development tools to accelerate unit/BDD test file creation, conduct automated code reviews via GitHub PRs, and monitor static code quality with SonarQube.
- **CI/CD & Operational Stability:** Integrated test automation suites into GitHub Actions CI/CD pipelines for continuous cloud execution; published development and execution status reports to global stakeholders.

ReachLocal India — Senior Analyst

Jan 2022 – Apr 2025

- **Systemic Root Cause Analysis:** Conducted deep-dive root cause analysis on continuous test failures, uncovering data duplication anomalies in backend databases/APIs and collaborating with core developers to fix UI/data issues with 100% accuracy.
- **Chaos Testing & Manual Verification:** Established version-control-based chaos testing at the end of each sprint to validate system resiliency, achieving 100% scenario coverage across critical business workflows.
- **Process Automation & Support:** Tracked, maintained, and executed manual and automated test suites, resolving complex user access and platform tickets while achieving an 85% operational efficiency gain.

HBS Dental Care — Software Consultant / Co-Founder

Sep 2020 – Dec 2021

- **System Design & Web Deployment:** Architected digital web solutions and patient management application workflows, improving operational productivity by 25% and reducing system errors by 40%.

PROJECTS

- **Full-Stack Web App & Cloud Testing:** Built responsive applications using React.js, Tailwind CSS, Supabase, REST APIs, and MongoDB; set up Kubernetes test environments and automated CI/CD deployment workflows via GitHub Actions.

EDUCATION & HONORS

- **National Institute of Technology (NIT), Warangal** — B.Tech in Electronics & Communication Engineering
- **Genpact Bronze Award (June 2025):** Recognized for engineering scalable test automation frameworks and improving process efficiency by 90%.
